

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: FIREFIGHTERS PHYSICAL FITNESS PROGRAM
SERVICES AGREEMENT

MEETING DATE: FEBRUARY 19, 1992

PREPARED BY: FIRE CHIEF

RECOMMENDED ACTION: That the City Council approve the contract with Saint Josephs Medical Center without competitive bidding with a finding that this action is being taken in the best interest of the City.

BACKGROUND INFORMATION: During our negotiations with the United Firefighters of Lodi in 1986 there was established a firefighters physical fitness program which would meet very specific criteria. It was negotiated to have Saint Josephs Fitness Center, a division of Saint Josephs Medical Center, conduct the program during the first three years of the program. When we re-negotiated the contract with the UFL in 1990 the program continued in effect. but without the specific wording which would require us to use Saint Josephs. We have continued to use Saint Josephs due to the advantages of having our medical records pertaining to the physical fitness program and vaccinations kept in one place. We have also been impressed with the fact that their Prices have increased very minimally during the past five years.

Saint Josephs has provided the Fire Department with exceptional service and comes to our location to conduct physicals, fitness assessments. and assessment follow-up conferences. We are very pleased with their service and find that the continuity of maintenance of medical history records and the historical tracking of the progress of our employees physical fitness is important to the continued success of this program.

FINANCIAL: Funds for the physicals. vaccinations and physical fitness assessments are budgeted in the Workers Compensation fund. The required funds vary depending on the number of new employees we have: the number of vaccinations: re-vaccinations. etc.. We generally expend approximately 110,000 to \$12,000 per year for these services.

APPROVED

THOMAS A. PETERSON
City Manager
